“AROMA”

Art Exhibition

“In my work I project the need to **escape** in memories, to awaken sensations from a time more pure, true and **innocent**. Floral oil paintings, placed in abstract settings indicating the changing of the seasons, inspired by my **homelands nature**.

Through the spring series I aim to awaken **nostalgic** feelings **smells** and imagery that take us back to our **roots**.

That same feeling that I, also experience when seeing that first **almond bloom** or smelling that first **aroma** in a warm spring breeze.”
